9	I have completed the survey separately, but on reflection I want to give more detailed comments. I really think that Buxworth residents need to set up their own newsletter / website and circulate it electronically / in hard copy to those who have no electronic access. A noticeboard in the village on its own is no good. Alternatively Buxworth should have its own website or own section on the CHINLEYCA website. But a better solution would be to completely relaunch the Chinley ca Website so that it better reflects who it is for. Indeed, who is it for? if it is for Chinley AND Buxworth, then the webaddress and key titles should reflect that. It is currently just for Chinley people. Why else would it have that web address? In fact, do Chinley people really want Buxworth included in this consultation? There are some fundamental issues to be addressed before the 2 communities can move forward cohesively.	12/8/2014 10:38 AM

Also, after attending the kettles, I didn't go back because the lovely instructor had to split the class as there was not enough kettles-I had wanted a full session using the kettles- but it became more of an aerobics lesson- she was great-but I would even pay a little more to help kit her out- or, have bells there that we can purchase?	11/24/2014 3:02 AM
